

STAR TRAC 8 SERIES RECUMBENT BIKE

Easy and comfortable. How do you improve on an already great recumbent bike experience? You make it as comfortable as a great chair. You start by making sure it features the same Morse Taper bottom bracket and pedal system that is unique to Star Trac bikes. That's exactly what we did. Then, we kept going with a modern iconic design offering the industry's most comfortable backrest, a walk-through frame design, heart rate bar and adjustable reading station, dual-platform pedals and Star Trac's signature personal fans. The result – a recumbent bike that's the greatest looking and feeling ride on the floor.

SPECIFICATIONS

Weight	86 kg
