

STAR TRAC S-UBX S SERIES UPRIGHT BIKE

One word you'll never hear used to describe our bikes is "ordinary." Settle into its wide, cushioned seat and press start on the most user-friendly display on the market. It doesn't take long to realize that we've taken the upright bike farther than most thought possible. The SUBx is prewired for the S series PVS entertainment system, and its user-friendly console features a motivational track, personal fan, accessory holder, and large control buttons. Dynamic heart-rate control adjusts exercise intensity, for interval training. The easy-up seat adjustment makes seat position changes simple.
