

WATERROWER OXBRIDGE

THE WATERROWER OXBRIDGE IS CRAFTED FROM BEAUTIFUL CHERRY WOOD.

The WaterRower Oxbridge rowing machine is hand crafted from solid cherry wood, and finished with a light coating of Danish oil.

Wood is an excellent material for this application due to its ability to absorb sound and vibration enhancing the WaterRower's smooth, quiet operation. The Oxbridge, as with all WaterRowers, features patented WaterFlywheel technology, unrivaled in its replication of the resistance felt in on the water rowing. Rowing is a great exercise to help burn massive amounts of calories in one simple movement, and the rowing machine offers a low impact workout suitable for most users.
